

Application for Amendment Municipality of Red Lake Official Plan Section 22 of the *Planning Act*

Instructions

Specific information requested within this application is mandatory to provide, as it is prescribed by Schedule 1 to Ontario Regulation 543/06 made under the *Planning Act*. This information must be provided with the appropriate fee, and the site sketch of the location subject to this rezoning application. If the mandatory information, together with the site sketch and fee, is not provided, the Municipality may refuse to accept or further consider the application.

This application form also sets out other information that may be needed as permitted under the Official Plan for The Municipality of Red Lake. To ensure the quickest and most complete review, this other information must be submitted with the complete application. In the absence of this other information, it may not be possible to do a complete review which may result in delay and possible refusal of the application.

Early Consultation

Prior to formally submitting an application, the applicant and/or agent are encouraged to contact staff of the Municipal Office to discuss the development proposal. Early consultation is beneficial, as the applicant can review the proposal with Municipal staff and discuss what supporting documents and information may be required.

Submission of the Application

The Municipality requires:

- ✓ A copy of the Parcel Identification Number Abstract from the Kenora Land Titles office or Terranet dated not older than 6 months; and Assessment Roll (Tax Bill) for proof of ownership
- ✓ The original signed, and witnessed copy of the application. Note: the Secretary-Treasurer (Planning Administrator) is a Commissioner of Oaths.
- ✓ Measurements in metric units (i.e. centimeters, metres, kilometers; 1 foot = 0.308 metres)
- ✓ The application to be completed in blue or black ink only
- ✓ Colour photos of the subject location from the ground (not aerial), if available
- ✓ The application fee

If you are unfamiliar with making *Planning Act* applications or have difficulty with the application process you are encouraged to retain a planning consultant. Generally, for completion of the application and in preparation of a good site sketch, you may consult the Red Lake Municipal Planning Department.

Contact information for the Red Lake municipal planning office is below:

Planning Department
Corporation of the Municipality of Red Lake
2 Fifth Street
P.O. Box 1000
Balmertown, ON P0V 1C0

EMAIL municipality@red-lake.com		EMAIL desanti@fotenn.com	

DOES ANY OTHER PARTY HAVE INTEREST IN THE PROPERTY, SUCH AS CHARGE, MORTGAGE, OR EASEMENT?
No

PLEASE PROVIDE THE NAMES AND ADDRESSES FOR THESE PARTIES
n/a

PROPERTY INFORMATION

LEGAL DESCRIPTION OF THE SUBJECT LAND, SUCH AS MINING PLAN DESCRIPTION, REGISTERED PLAN AND LOT OR PART NUMBERS
Part K1397, Plan M-866, Lots 18 – 27, and Lot 46, and Block 98, and part of the lands known as Kelson Drive, PCL 6612, Township of Dome, District of Kenora, Patricia Portion.

STREET ADDRESS AND TOWN SITE NAME
Lots 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25 Kelson Drive, Municipality of Red Lake.

DIMENSIONS OF SUBJECT LAND		
Frontage (metres): 210 m	Depth (metres): 120 m	Area (hectares): 2.5 ha

CURRENT DESIGNATION WITHIN THE RED LAKE OFFICIAL PLAN? HAS A SITE SPECIFIC DESIGNATION BEEN APPLIED, AND IF SO, WHAT LAND USES ARE PERMITTED OR NOT PERMITTED?
The current designation in the Official Plan is Natural Resources (NR). Permitted uses include forestry, mining and aggregate removal, agriculture, and wildlife management. No, a site specific designation has not been applied.

CURRENT ZONING WITHIN THE ZONING BY-LAW? HAS SITE SPECIFIC ZONING BEEN APPLIED, AND IF SO, WHAT LAND USES ARE PERMITTED OR NOT PERMITTED?
The subject location is zoned Natural Resources (NR), as per Zoning By-law 1277-10 (February 16, 2010).

EXPLANATION OF HOW THIS PROPOSAL IS SUITED TO SURROUNDING USES
All uses in the surrounding area are residential. Immediately adjacent, and within 60 metres to the Southwest, the existing land uses are town site residential. In all other directions and within 230 metres of the site, the existing uses are Rural Residential.

WHAT IS THE PURPOSE OF THE PROPOSED AMENDMENT
The purpose is to change the designation of the site from Natural Resources (NR) to Townsite Residential (TR).

WHAT LAND USES WOULD AN AMENDMENT AUTHORIZE?
If approved, year round, permanent residential uses serviced by Municipal sewer and water would be permitted. These may include single and semi-detached dwellings, mobile

<input checked="" type="checkbox"/> Municipal road – year round	<input type="checkbox"/> Right-of-way
<input type="checkbox"/> Private road	<input type="checkbox"/> Water

WATER ACCESS – Where access to the subject land is provided by water only:

Docking facilities (specify) Parking facilities (specify)

distance from subject land distance from subject land

distance from nearest public road distance from nearest public road

EXISTING USES of subject land: Subject land is currently treed and vacant. There has been no development upon the land.	LENGTH OF TIME the existing uses of the subject land have continued: always
---	--

PROPOSED USES of the subject land:
Town site Residential uses as described and permitted in the Official Plan. Town site residential Density 1 (R1) Zone uses as permitted in the Zoning By-Law.

WATER is or will be provided to the subject land by:

<input checked="" type="checkbox"/> Publicly-owned/operated piped water system	<input type="checkbox"/> Lake or other water body
<input type="checkbox"/> Privately-owned/operated individual well	<input type="checkbox"/> Other means (specify)
<input type="checkbox"/> Privately-owned/operated communal well	

SEWAGE DISPOSAL is or will be provided to the subject land by:

<input checked="" type="checkbox"/> Publicly-owned/operated sewage system	<input type="checkbox"/> Privy
<input type="checkbox"/> Privately-owned/operated individual septic system	<input type="checkbox"/> Other means (specify)
<input type="checkbox"/> Privately-owned/operated communal septic system	

*Properties to be serviced by private sewage systems will require a preliminary soils inspection. It is the responsibility of the applicant to arrange an inspection with the Northwestern Health Unit.

*If the requested amendment would permit development on privately owned and operated individual or communal sewage system, and more than 4500 litres of effluent would be produced per day as a result of the proposed development, a servicing options report and a hydrogeological report must be provided.

STORM DRAINAGE is or will be provided to the subject land by:

<input type="checkbox"/> Sewers	<input checked="" type="checkbox"/> Ditches	<input type="checkbox"/> Swales	<input type="checkbox"/> Other means (specify)
---------------------------------	---	---------------------------------	--

WASTE DISPOSAL – What is the expected type and volume of waste to be produced on the subject land? How will this waste be managed?
i.e. Pick-up, etc.
Municipal residential curbside pick-up.

Would the proposed amendment remove the subject land from an area of employment?
No

OTHER APPLICATIONS – if known, indicate if the subject land is or will be the subject of an application under the Act for:

<input checked="" type="checkbox"/> approval of a plan of subdivision (under section 51) File	Status: If subject OPA is approved, application to be submitted
If Yes please describe in detail: _____	
<input type="checkbox"/> consent (under section 53) File	Status
If Yes please describe in detail: _____	

Zoning By-Law Amendment application (under section 34) File Status: If subject OPA is approved, application to be submitted

If Yes please describe in detail: _____

Are you aware of any *Planning Act* Applications currently being proposed for any properties within 120 metres of the subject property? If Yes please describe:

Applications for Rezoning and subdivision are being processed for an area of land East of the subject location. A By-Law was passed for the proposed rezoning and the application for subdivision is being considered. The File numbers for these applications are D14-09-06 and D12-09-02.

CHECK AS APPLICABLE:

Does the Owner own any adjoining property? Yes No

If Yes please describe in detail: The Municipality of Red Lake owns 7 Residential lots and 1 large Open Space lot all to the Northeast of the subject property

Is there any reason to believe that the site may be environmentally contaminated? Yes No

If Yes please describe in detail: _____

Has an industrial or commercial use been on or adjacent to the property? Yes No

If Yes please describe in detail: _____

Has lot grading been changed by adding or removing earth or other material? Yes No

If Yes please describe in detail: _____

Has the Ministry of the Environment or any other ministry advised the owners that the property is or may be contaminated? Yes No

If Yes please describe in detail: _____

Are there any known Natural Heritage values existing on the site? Yes No

If Yes please describe in detail: _____

HOUSING AFFORDABILITY

For applications that include permanent housing, complete *Table A- Housing Affordability*. For each type of housing and unit size, complete the rest of the row. If lots are to be sold as vacant lots, indicate the lot frontage. Information should be based on the best information available at the time of the application. If additional space is needed, attach a separate page.

Table A – Housing Affordability

Housing Type	Number of Units	Unit Size and/or Lot Frontage	Estimated Selling Price/ Rent
Semi-detached			
Link/ Semi-detached			
Row or Townhouse			
Mobile home/ trailer			
Apartment block			
Other types or multiples Detached (single family residential)		All frontages will be at least 15m, average 17m	

PROPOSAL INFORMATION:

How in your view will the proposal fit with the existing land uses in the area?

The proposal is consistent with existing land uses in the area which are also residential. Uses immediately adjacent the Southwest of subject location are Town site Residential. Uses to the North of the subject location are Rural Residential. To the East, lands are presently vacant and designated for residential use as well. To the South, lands are zoned for town site residential use and are proposed to be subdivided.

Is the proposed amendment consistent with the Provincial Policy Statement issued under subsection 3(1) of the Planning Act?
(The 2005 Provincial Policy Statement can be found on the website of the Ministry of Municipal Affairs and Housing at www.mah.gov.on.ca/Page215.aspx)

Yes, the proposal is consistent with the Provincial Policy Statement. In particular, the Provincial Policy Statement identifies that growth and development should occur where possible by infilling. The subject location is situated amongst an assortment of residential uses including Rural and Town site. The area is undeveloped and vacant and not being used for a particular function by adjacent property owners. Considering the need for more residential property and adjacent uses, the best use of the subject location is for Town site Residential use.

Is the subject land within an area of land designated under any Provincial Plan or Plans? If yes, does the proposal conform to or not conflict with the applicable provincial plan or plans?

No, the subject location is not within an area of land designated under any Provincial Plan.

SITE PLAN SKETCH:

Minimum requirements will be a sketch, on letter paper, showing the following:

- North arrow, scale and legend
- The boundaries of the owner's property and dimensions
- The boundaries of the property subject to the application including area and dimensions if different from above
- The location, dimensions (height, length, and width) and type of all **existing** and **proposed** buildings and structures on the subject land, indicating the distance of the buildings or structures from other buildings and the front yard line, rear yard line and the side yard lot lines.
- The location or proposed location of any sewage disposal systems, including pit privies, grey water, or septic systems
- The approximate location of all natural and artificial features on the subject land and on land that is adjacent to the subject land that, in the opinion of the applicant, may affect the application. Examples include buildings, transmission lines, roads, watercourses, slopes, drainage ditches, river or stream banks, wetlands, wooded areas, and wells
- The existing uses of lands on adjacent properties (i.e. residential, automotive repair, retail)
- The proposed development, including the area and dimensions of any new lots to be created, the size and location of buildings, parking spaces, landscaping, amenity areas, etc.
- As applicable - fire access route, outdoor equipment and storage, walkway, curbing, fencing
- Existing municipal infrastructure immediately adjacent to the site (roads, lane, sidewalks, existing entrances, boulevard trees, fire hydrants, hydro poles, easements, etc.)
- The location, width and name of any roads within or abutting the subject land, indicating whether it is an unopened road allowance, a public traveled road, a private road or a right-of-way.
- If access to the subject land is by water only, the location of the parking and docking facilities to be used.
- The location and nature of any easements affecting the subject land.

The table below is a checklist (not a substitute for the PPS) identifying areas of provincial interest that may apply to the requested amendment. Please check the appropriate boxes.

Development Circumstances OR Features of Interest to the Province	(a) If a feature/land use, is it on site or within 500 m OR (b) If a development circumstance, does it apply?	If a feature/land use, specify distance from site (in meters)	Additional information that may be required
Employment lands			<p>If the requested amendment is proposing to remove lands from an area of employment for non-employment use, a comprehensive review should be undertaken to demonstrate:</p> <ul style="list-style-type: none"> ● the land is not required for employment purposes over the long term, and that ● there is a need for the proposed conversion.
Rural areas located in municipalities			<ol style="list-style-type: none"> 1. Assess compatibility with rural landscape and whether new development could be sustained by the existing level of rural services; 2. Demonstrate appropriateness of available or planned infrastructure and avoiding the need for unjustified and/or uneconomical expansion of this infrastructure; and 3. Demonstrate compliance with the minimum distance separation formulae where new land uses and new or expanding livestock facilities are proposed.
Rural areas in territory without municipal organization			<ol style="list-style-type: none"> 1. Demonstrate relationship to the management or use of resources and resource based recreational activities; or 2. If proposal is in an area adjacent to and surrounding municipalities, provide information that: <ul style="list-style-type: none"> ● the area forms part of a planning area; and ● a comprehensive review has determined that the impacts of growth will not place an undue strain on the public service facilities and infrastructure provided by adjacent municipalities, regions and/or the province.
Class 1 industry ₁			<p>If sensitive land use is proposed within 70 m from the boundary lines, a noise/odour/particulate study may be needed.</p>
Class 2 industry ₂			<p>If sensitive land use is proposed within 300 m from the boundary lines, a noise/odour/particulate study or other studies may be needed.</p>
Class 3 industry ₃			<p>If sensitive land use is proposed within 1000 m from the boundary lines, an assessment of the full range of impacts and mitigation measures may be needed.</p>
Landfill site(s): closed/active landfill			<p>If sensitive land use is proposed, and if within 500 m of the perimeter of the fill area, studies including leachate and groundwater impacts, noise, methane gas control, odour, vermin and other impacts may be needed.</p> <p>The proponent may also be requested to provide other information such as age and size of landfill site; type of waste disposed on site; projected life of site; size of buffer area; amount of truck traffic per day, etc.</p> <p>If proposal is on a closed landfill that is 25 years old or less, approval under Section 46 of the <i>Environmental Protection Act</i> is required and should be obtained prior to any <i>Planning Act</i> approval.</p>
Sewage treatment plant and waste stabilization pond			<p>There is need for a feasibility study if the proposal is for a sensitive land use and the property line is within:</p> <ul style="list-style-type: none"> ● 100 m of the periphery of the noise/odour-producing source structure of a sewage treatment plant (STP) producing less than 500 cubic metres of effluent per day; or ● 150 m of the periphery of the noise/odour-producing source structure of a STP producing greater than 25,000 cubic metres of effluent per day; or ● 400 m from the boundary line of a waste stabilization pond.
Provincial highways			<p>Consult with the Ministry of Transportation to assess whether direct access to the provincial highway will be permitted. If so, permits will be required for all proposed buildings/land use and entrances within the permit control area in accordance with the <i>Public Transportation and Highway Improvement Act</i>.</p> <p>If the proposed development is located in proximity to a provincial highway, a traffic impact study and a stormwater management report will be required by the Ministry of Transportation.</p>

Development Circumstances OR Features of Interest to the Province	(a) If a feature/land use, is it on site or within 500 m OR (b) If a development circumstance, does it apply?	If a feature/land use, specify distance from site (in meters)	Additional information that may be required
Airports where Noise Exposure Forecast (NEF) or Noise Exposure Projection (NEP) is greater than 30			If the proposal is to redevelop existing residential uses and other sensitive land uses, or infill of residential and other sensitive land uses in areas above 30 NEF/NEP, assess feasibility of proposal by demonstrating no negative impacts on the long-term function of the airport.
Active railway line and major highways			A noise feasibility study may be needed to determine possible noise impacts and appropriate mitigation measures if sensitive land use is proposed within: <ul style="list-style-type: none"> ● 500 m of a main railway line or of any provincial highway; ● 250 m of a secondary railway line; ● 100 m of other railways or a freeway right of way; and ● 50 m of a provincial highway right-of-way.
Electricity generating station, hydro transformers, railway yards, etc.			If sensitive land use is proposed, and if within 1000 metres, a noise study may be needed to determine possible noise impacts and appropriate mitigation measures.
High voltage electric transmission line			Consult the appropriate electric power service/utility for required buffer/separation distance.
Transportation, other infrastructure, utility and hydro corridors			If an OPA is proposed for an area in a planned corridor, demonstrate that the proposed development would not preclude or negatively affect the use of the corridor for the purpose(s) for which it was identified.
Cultural heritage and archaeology			<p>Significant built heritage resources and significant cultural heritage landscapes shall be conserved; adverse impact on these resources are to be mitigated.</p> <p>Development and site alteration shall only be permitted on lands containing archaeological resources or areas of archaeological potential if significant archaeological resources have been conserved by removal and documentation, or by preservation on site.</p> <p>Where significant archaeological resources must be preserved on site, only development and site alteration which maintain the heritage integrity of the site may be permitted.</p> <p>Development and site alteration may be permitted on adjacent lands to protected heritage property if it has been demonstrated that the heritage attributes of the protected heritage property will be conserved. Mitigation measures and/or alternative development approaches may be required in order to conserve the heritage attributes of the protected heritage property affected by proposed adjacent development or site alteration.</p>
Prime agricultural lands/areas			<ul style="list-style-type: none"> ● If land is to be excluded from prime agricultural areas to allow for expansion or identification of settlement areas to accommodate growth and development, a comprehensive review must be undertaken. ● Demonstrate the need for use other than agricultural and indicate how impacts are to be mitigated. (Lands could be excluded from prime agricultural areas for non-agricultural uses provided that the criteria as set out in section 2.3.5 of the PPS are met).
Agricultural operations			If development is proposed outside of a settlement area, need for compliance with the Minimum Distance Separation Formulae.

Development Circumstances OR Features of Interest to the Province	(a) If a feature/land use, is it on site or within 500 m OR (b) If a development circumstance, does it apply?	If a feature/land use, specify distance from site (in meters)	Additional information that may be required
Mineral mining operations and petroleum resource operations and known petroleum resources			<p>If within 1000 m, demonstrate that development and activities would:</p> <ul style="list-style-type: none"> ● not preclude or hinder the expansion of existing operations, or their continued use, or establishment of new resource operations, or access to the resources; ● not be incompatible for reasons of public health, public safety or environmental impacts. <p>Development and activities which preclude or hinder the establishment of new operations or access to resources, and are adjacent to or in known mineral deposits, petroleum resources, or in significant areas of mineral or petroleum potential, are permitted if:</p> <ul style="list-style-type: none"> ● resource use is not feasible; or ● the proposed land use or development serves a greater long-term public interest, and ● issues of public health, public safety and environmental impacts are addressed.
Non-operating mine site within 1000 metres			<p>If within 1000 m, demonstrate to the satisfaction of the Ministry of Northern Development and Mines that the mine has been rehabilitated OR all potential impacts have been investigated and mitigated.</p>
Rehabilitated and abandoned mine sites			<p>If proposal is on, adjacent to, or within 1000 m, consult with the Ministry of Northern Development and Mines. Progressive and final rehabilitation is required to accommodate subsequent land uses.</p>
Mineral aggregate operations, and known deposits of mineral aggregate resources			<p>There is need for a feasibility study to determine noise, dust/particulate and hydrogeology if sensitive land use is proposed within:</p> <ul style="list-style-type: none"> ● 1000 m of the property boundary line (or licensed area) of any land designated for or an existing pit; or ● 1000 m of the property boundary line (or licensed area) of any land designated for or an existing quarry. <p>If within 1000 m of a known deposit of sand, gravel or a bedrock resource, need to demonstrate that development and activities would:</p> <ul style="list-style-type: none"> ● not preclude or hinder the expansion of existing operations, or their continued use, or establishment of new resource operations or access to the resources; ● not be incompatible for reasons of public health, public safety or environmental impacts. <p>Development and activities which preclude or hinder the establishment of new operations or access to resources, and are adjacent to or in known deposits of mineral aggregate resources, are permitted if:</p> <ul style="list-style-type: none"> ● the resource use is not feasible; or ● the proposed land use serves a greater long-term public interest, and ● issues of public health, public safety and environmental impacts are addressed.
Natural heritage systems			<p>If development and site alteration are proposed in a natural heritage system described in an approved official plan, demonstrate how the diversity and connectivity of natural features and the long-term ecological function and biodiversity of the system will be maintained, restored or improved.</p>
Significant wetlands in Ecoregions 5E, 6E and 7E; Significant coastal wetlands; Significant habitat of endangered species and threatened species			<p>Development and site alteration are not permitted in the features.</p> <p>Are any significant wetlands, significant coastal wetlands or unevaluated wetlands present on the subject lands or within 120 m?</p> <p>Are any known significant habitats present on the subject lands or within 50 m?</p> <p>Has there been preliminary site assessment to identify whether potentially significant habitats are present?</p>
Significant wetlands in the Canadian Shield north of Ecoregions 5E, 6E and 7E			<p>Development and site alteration are not permitted in the feature unless it can be demonstrated that there will be no negative impacts on the natural features or their ecological functions.</p> <p>Indicate if there are any significant wetlands, significant coastal wetlands or unevaluated wetlands present on the subject lands or within 120 m.</p>

Development Circumstances OR Features of Interest to the Province	(a) If a feature/land use, is it on site or within 500 m OR (b) If a development circumstance, does it apply?	If a feature/land use, specify distance from site (in meters)	Additional information that may be required
Significant woodlands and valleylands south and east of the Canadian Shield; Significant wildlife habitat; Significant Areas of Natural and Scientific Interest (ANSI)			<p>Development and site alteration are not permitted in the feature unless it can be demonstrated that there will be no negative impacts on the natural features or their ecological functions.</p> <p>Indicate if there are any significant woodlands, significant valleylands, significant wildlife habitat, and Areas of Natural and Scientific Interest (ANSIs) on the subject lands or within 50 m.</p>
Fish habitat			<p>Development and site alteration are not permitted in fish habitat except in accordance with provincial and federal requirements.</p> <p>Is any fish habitat on the subject lands or within 30 m?</p> <p>Is any lake trout lake on the subject lands or within 300 m?</p> <p>If yes to any of the above, an environmental impact study may be required.</p>
Adjacent lands to natural heritage features and areas			<p>Development and site alteration are not permitted on adjacent lands to natural heritage features unless:</p> <ul style="list-style-type: none"> ● the ecological function of the adjacent lands has been evaluated; and ● it has been demonstrated that there will be no negative impacts on the natural features or their ecological functions.
Sensitive surface water features and sensitive groundwater features			<p>Development and site alteration are restricted in or near sensitive surface water features and sensitive groundwater features.</p> <p>Demonstrate suitable mitigation measures and/or alternative development approaches to protect, improve or restore sensitive surface water features, sensitive groundwater features and their hydrologic functions.</p>
Water quality and quantity			<p>An assessment is generally required to determine potential impacts of development proposals on water quality and quantity.</p> <ul style="list-style-type: none"> ● If the proposal is adjacent to a water body such as a lake or stream, wetland, spring, or ground water recharge area, an impact assessment on the water body may be needed. ● As well, in areas of high water table, fractured bedrock or thin overburden, a hydrogeological report may be required in accordance with the Ministry of Environment (MOE) D-Series Guidelines. <p>(These are not the only instances when a technical study may be needed).</p> <p>Development adjacent to a lake trout lake must address other requirements. Consult with the Ministry of Municipal Affairs and Housing early in the planning process.</p> <p>The province has particular interests in lake trout lakes.</p>

Development Circumstances OR Features of Interest to the Province	(a) If a feature/land use, is it on site or within 500 m OR (b) If a development circumstance, does it apply?	If a feature/land use, specify distance from site (in meters)	Additional information that may be required
Natural hazards			<p>Development should generally be directed to areas outside of hazardous lands and hazardous sites.</p> <p>Is the proposal within:</p> <ul style="list-style-type: none"> ● a dynamic beach hazard? ● the defined portions of the one hundred year flood level along the connecting channels of the Great Lakes? ● areas that would be inaccessible as a result of flooding, erosion or dynamic beach hazards and a floodway? <p>Is the proposal subject to limited exceptions such as:</p> <ul style="list-style-type: none"> ● safe access appropriate for the nature of the development and the natural hazard? ● Special Policy Area? ● uses which by their nature must locate in the floodway? <p>Where development is permitted in portions of hazardous lands and hazardous sites not subject to the above prohibitions, flood-proofing, protection works standards and access standards must be adhered to. In addition, vehicles and people need to have a way to safely enter and exit the area, hazards cannot be created or aggravated and there can be no adverse environmental impacts.</p> <p>Is the subject land within or partially within:</p> <ol style="list-style-type: none"> 1. hazardous lands adjacent to the shorelines of the Great-Lakes – St. Lawrence River System and large inland lakes (includes flooding, erosion and dynamic beach hazards)? 2. hazardous lands adjacent to river, stream and small inland lake systems (includes flooding and erosion hazards)? 3. hazardous sites (includes unstable soils and unstable bedrock)? 4. a special policy area shown in an approved official plan? 5. the food fringe in an area subject to the two zone concept of floodplain management? <p>If the proposal is in a hazardous area, demonstrate how the hazards will be avoided, or where appropriate, addressed through standards and procedures such as flood-proofing and protection works.</p>
Human-made hazards ⁴ including mine hazards and high forest fire hazards			<p>Development proposed on abutting or adjacent to lands affected by: mine hazards; oil, gas and salt hazards; or former mineral mining operations, mineral aggregate operations or petroleum resource operations, may be permitted only if rehabilitation measures to address and mitigate known or suspected hazards are under-way or have been completed.</p> <p>Are the subject lands on or within 75 m of existing un-decommissioned oil and gas works?</p> <p>Are the subject lands on or within 1000 m of a salt solution mining well?</p> <p>Demonstrate how the hazard(s) will be addressed.</p>
Mine hazards, former mining operations, or rehabilitated and abandoned mine sites			<p>If the proposal is on, adjacent to, or within 1000 m of mine hazards, former mining operations, rehabilitated mine sites, abandoned mine sites or AMIS identified sites, progressive and final rehabilitation will be required to accommodate subsequent land uses; all work undertaken must be to the satisfaction of the province.</p>
Contaminated sites			<p>To determine potential soil contamination, proponents must complete a Phase 1 Environmental Site Assessment (ESA) as per the Ministry of Environment regulation. A Phase 2 Environmental Site Assessment would be needed if the site has potential for soil contamination.</p> <p>Remediation of contaminated sites shall be undertaken, as necessary, prior to any activity on the site(s) associated with any proposed new sensitive use such that there will be no adverse effects.</p>

AUTHORIZATION OF THE OWNER FOR AN AGENT TO MAKE APPLICATION

I/We the undersigned, being the owner of the subject land, hereby authorize
to be the applicant in the submission of this application. This application has been submitted with my/our full knowledge and
endorsement.
